

E8 DEFENDER

A series of green lines and dots that look like circuit traces or data paths, starting from the left and extending towards the right, with some branching and dots at the end.

**Get a real DISP focussed
Essential Eight Service,
that you can trust.**

“Empowering Defence Industry
companies to confidently
achieve DISP Essential Eight
Maturity Level 2 compliance”.

ESSENTIAL 8
CYBERSECURITY

Designed for DISP customers.

We know the landscape of DISP compliance and Essential Eight maturity can be complex and daunting.

That's why at Logi-Tech, we haven't just built a service; we've done the deep research, listened to the challenges you face, and honed our expertise to create a solution that truly makes your life easier.

We've heard the frustrations: the endless spreadsheets, the vague reporting, the struggle to keep up with evolving cyber threats. We understand the pressure of Defence contracts and the critical need for robust security.

With E8 Defender, we're delivering on our promise to simplify this journey for you, providing clear guidance, transparent visibility, and cutting-edge technology that empowers you to achieve and maintain compliance with confidence.

Our proactive and results-driven Essential 8 service transforms complex compliance requirements into clear, actionable steps, empowering DISP Certified, Defence Industry organisations to achieve DISP Essential 8 Maturity Level 2 compliance with confidence!

THE MOST **COMPREHENSIVE** DISP ESSENTIAL 8 SERVICE

- ✓ **DISP Portal Ready**
Your path to stress-free compliance.

COMPREHENSIVE | EFFICIENT | EFFECTIVE

WHY CHOOSE E8 DEFENDER WITH LOGI-TECH?

1

Essential 8
Specialist
Consulting

Essential 8 Specialist Consulting | Be guided by our specialists every step of the way.

We deliver a **proactive and results-driven service** that transforms complex compliance requirements into **clear, actionable steps**, empowering DISP Certified, Defence Industry organisations to reach Essential 8 Maturity Level 2, with confidence.

Logi-Tech is a veteran in cyber for critical systems. We speak the language of DISP, IRAP, ASD, and ACSC so you can focus on delivering for your clients, not decoding compliance documents.

We've been supporting our clients since 1986, we are Defence-Veteran Owned, and as a DISP Certified company ourselves -

- **We know DISP**
- **We know Essential Eight**
- **We know Technology**
- **We know Defence!**

When generic MSPs fail to deliver, and internal teams are stretched too thin, clients turn to us to take ownership of their systems, security, and compliance.

If you are done with poor response times, vague reporting, and support that doesn't scale with your business; or dealing with ageing infrastructure, and unclear cyber risks with no practical plan forward, Logi-Tech is your partner who actually delivers.

Are you a DISP Certified organisation striving to achieve E8 Maturity Level 2?

Without it, your organisation could face:

- ✗ Ineligibility for Defence contracts
- ✗ DISP suspension or rejection
- ✗ Increased cyber risk and liability

Without achieving this critical benchmark, your organisation could face significant challenges, including ineligibility for Defence contracts, DISP suspension or rejection, and increased cyber risk and liability.

At Logi-Tech, we understand these challenges deeply. That's why we've engineered the E8 Defender - a comprehensive service designed to streamline your journey to compliance and bolster your cybersecurity posture.

We deliver a REAL DISP focussed service.

Trusted by Defence. Trusted by Industry.

WHY CHOOSE E8 DEFENDER WITH LOGI-TECH?

2

E8 Defender
Intuitive
Dashboard

E8 Defender Dashboard | No guesswork, just clear, ongoing visibility over your compliance journey.

Stop wrestling with static spreadsheets and start experiencing the future of DISP compliance with Logi-Tech's **E8 Defender dashboard**.

Our Essential 8 Power BI Dashboard isn't just a tool; it's your strategic partner in achieving and maintaining DISP certification with efficiency and peace of mind.

Logi-Tech Revolutionises Your DISP Journey! Our innovative solution can simplify your Essential 8 Level 2 uplift and streamline your DISP compliance journey.

Navigating the complexities of Essential 8 Level 2 cybersecurity uplift and maintaining DISP certification can feel like an endless battle against unwieldy spreadsheets.

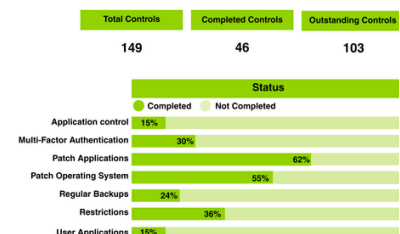

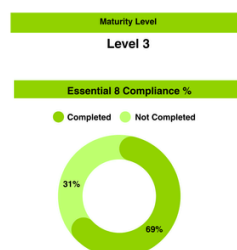

For DISP Members, tracking up to 150 controls, each demanding meticulous evidence, then manually uploading it to the DISP Portal for applications or annual audits is not just time-consuming – it's a significant drain on resources and a source of constant compliance anxiety.

Logi-Tech has heard you.

We understand the challenges of demonstrating compliance while focusing on your core business.

That's why we've transformed the traditional, cumbersome approach to Essential 8 Level 2 uplift. Logi-Tech's Dashboard is designed using MS Power BI, to solve your DISP compliance challenges

While a comprehensive spreadsheet remains at the heart of our process, it's now seamlessly integrated with a dynamic Power BI Dashboard, putting you firmly in control.

WHY CHOOSE E8 DEFENDER WITH LOGI-TECH?

3

Access to
cutting-edge
cybersecurity
technologies

Cutting Edge Cybersecurity Technology | Best-in-breed solutions to secure your business.

Our **E8 Defender Technology Stack** offers a multi-layered network and software approach to security.

Depending on your needs, we can supply, install & configure a suite of best-in-breed solutions to secure your business.

We will always use your existing tools where they meet Essential 8 Maturity Level 2 requirements.

At Logi-Tech, we don't just keep up with technology, we stay ahead of it.

We're selective about who we work with, partnering only with industry-leading technology providers known for reliability, innovation, and performance.

These strategic partnerships allow us to bring you trusted, cutting-edge solutions that are tailored to your business needs.

You can read more about our E8 Defender Technologies on our website.

Trusted by Defence. Trusted by Industry.

WHY CHOOSE E8 DEFENDER WITH LOGI-TECH?

4

DISP Portal Ready

DISP Portal Ready | Your path to stress-free compliance.

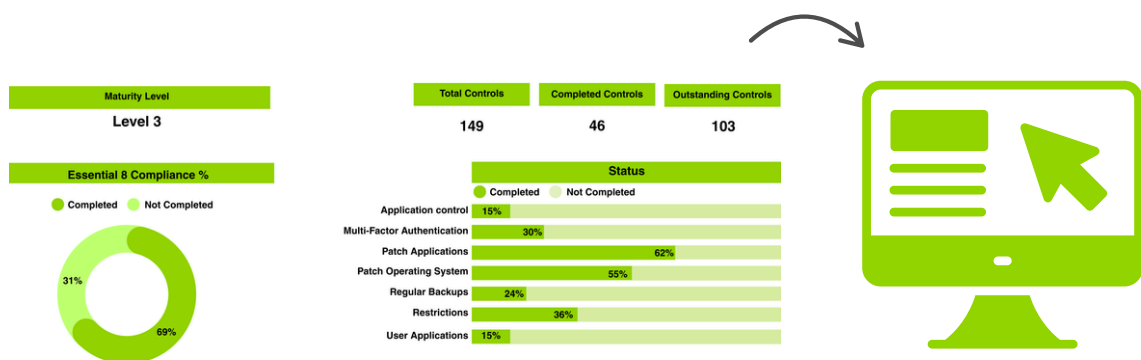

The **E8 Defender Dashboard** that tracks your controls and holds all the DISP compliant evidence, is designed for seamless, direct transfer to the DISP Portal.

Whether it's for your initial DISP Application or your critical DISP Annual Security Audit reporting, you can confidently submit all required evidence with minimal effort, while reducing the risk of errors.

Logi-Tech's E8 Defender Dashboard

This innovative solution directly addresses the inefficiencies of manual tracking and reporting, offering unparalleled clarity and ease.

- Real-Time Progress at Your Fingertips
- Enhanced Collaboration & Accountability
- Proactive Reminders to Stay on track
- Designed for DISP Portal Submission
- Simplified Process
- Reduced Risk of Error
- Less Stress
- DISP Applications, Audits & Reports

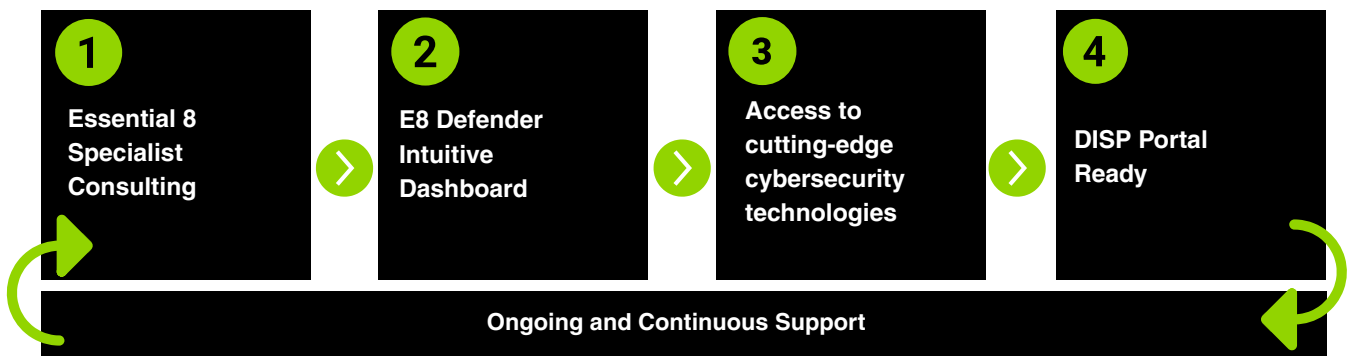

E8 DEFENDER DESIGNED WITH DISP CUSTOMERS IN MIND

After Care and Ongoing Services.

Once you have reached your Maturity Level goals, you may consider how you'd like to stay on top of your ongoing DISP Essential 8 requirements.

At Logi-Tech, our commitment to your cybersecurity doesn't end with implementation. We can provide comprehensive after-care and ongoing support to ensure your organisation remains secure, compliant, and ahead of evolving threats.

Whether you're at Maturity Level 0 or just shy of Level 2, E8 Defender offers:

- Confidence, compliance, and continuous protection
- Clear evidence for audits and DISP reviews
- End-to-end cyber resilience, all in one place
- Reduced risk of non-compliance and contract delays

E8 Defender delivers a complete, evidence-backed uplift solution customised to your current posture, goals, and compliance requirements.

- Assess your current Essential Eight maturity (across all eight strategies)
- Plan and prioritise remediation based on risk, cost, and ACSC expectations
- Deploy trusted cyber tools if requested
- Generate audit-ready evidence for DISP and IRAP reviews

Rest easy knowing you're protected, compliant, and prepared for future Defence engagement.
