

Australian Government Security Clearances

DEFENCE READY

WORK READY

A guide for individuals and new Australian Citizens seeking a career in the Australian Government, Defence, and the Defence Industry

Unlock Broader Defence Opportunities with an Australian Government Security Clearance!

Quick Overview

The Government operating environment is changing. Increasingly, contracts now mandate a clearance for any hardware or software-related work.

This shift is no longer limited to Defence alone. Where work involves sensitive systems, protected information, or personal and medical-in-confidence data, an NV1 clearance is rapidly becoming the standard requirement. This includes work associated with: Department of Defence, Australian Taxation Office (ATO), Services Australia, NDIS and other agencies managing personal or health-related data.

In practical terms, even roles that were historically considered “non-sensitive” are now falling within clearance-required environments.

Unlike generic Security Clearance services, we can provide a career pathway.

Security Clearance reimbursement model - Get your \$ cash back!

Defence Industry Security Program (DISP Level 3) certified.

Managing Australian Government Security Clearances since 2007.

You do not have to be an employee or sub-contracted to us. We support any Australian citizen seeking Security Clearance.

We can sponsor Baseline, NV1, and NV2 Security Clearances, including clearance upgrades and reactivations

Why would I need a Security Clearance?

An Australian Security Clearance is more than an administrative requirement – it is a gateway. It opens access to a broader range of meaningful, high-impact roles and positions and positions you to be considered for opportunities that are otherwise simply not available. For many people, this is the step that transforms what's possible in their career.

Which Security Clearance level is recommended?

We encourage you to consider obtaining a Negative Vetting Level 1 (NV1) Security Clearance as a minimum. It is the most commonly requested clearance level by the Australian Government and Defence. This is the best investment in your future within the Defence and national security space.

The best time to start is now

The Australian Government Security Vetting Agency (AGSVA) currently advises an average processing timeframe of approximately 75 business days for NV1 clearances. Beginning early ensures you are ready when the right opportunity arises – rather than watching it pass by while clearance is pending.

Do I have to be an employee or on sub-contract with Logi-Tech to use this service?

No. Logi-Tech is a certified provider of Security Clearance as a Service, supporting any Australian citizen seeking an Australian Government Security Clearance. We will continue to sponsor your clearance under a sponsorship agreement with you. You can choose to cease the sponsorship arrangement at any time. This could be by ceasing our sponsorship, or transferring sponsorship to your chosen employer's Security Officer. Any outstanding fees will be calculated at the time.

However, there is a benefit to people who become employees or subcontractors to the entities within the Para Bellum Group, see *Reimbursement Arrangement*.

Why choose Logi-Tech as your clearance sponsor?

Logi-Tech is a Defence Industry Security Program (DISP Level 3) certified provider of Security Clearances, guiding Australian citizens through every step of the Australian Government Security Clearance process.

Our commitment to you - Reimbursement Arrangement

While AGSVA fees are non-refundable, we believe in backing our people.

To support you in taking this step, we will reimburse the full clearance cost once you have completed a minimum of 30 days on contract with any Para Bellum Solutions Group (Logi-Tech, Enginium, or Para Bellum Solutions) client within two years.

This means you can move forward with confidence, knowing we are invested in your success.

If you'd like to talk through how Baseline, NV1, or NV2 clearances align with upcoming roles or your longer-term goals, please reach out to us – we're happy to help.

Sponsorship overview

Logi-Tech's sponsorship begins from the date the invoice is issued and is reviewed annually from that date. Further information is available in the attached Security Clearance Charges and Services document. This is an opportunity to future-proof your career, broaden your options, and step confidently into the Defence ecosystem.

We can also sponsor clearance upgrades and clearance reactivations!

Defence and Government Careers with us may include:

You must be an Australian Citizen to apply for an Australian Government Security Clearance.

Security Clearance Charges and Services

New Security Clearance Applications	<p>Fee payable (including GST)</p> <p>Baseline = \$2,100 NV1 = \$3,295 NV2 = \$5,500 (12 months sponsorship included)</p>
Existing Security Clearance Level Upgrade	<p>Fee payable (including GST)</p> <p>Baseline to NV1 = \$2,000 NV1 to NV2 = \$3,195 (12 months sponsorship included)</p>
Existing Clearance Reactivation	<p>Fee payable (including GST) \$660 (12 months sponsorship included)</p>
Sponsorship Period	<p>The 12-month sponsorship period commences from the date of the Security Clearance invoice (not the date the clearance is granted) and will be due for assessment/renewal annually on that date.</p>
Annual Assessment Fees	<p>Annual assessment of your clearance status - \$660.00 (inc GST) per assessment / per annum. This fee includes maintaining annual sponsorship. The fees are waived for those under our Reimbursement Model - See <i>Terms for Reimbursement</i>.</p>
Liability Fees	<p>You must adhere to your obligations and conditions held under Logi-Tech's DISP (Defence Industry Security Programme) certification, such as declaring overseas travel and participating in travel briefings. Any enquiries about these obligations can be sent to disp@logitech.com.au. You will be advised on your obligations during the onboarding process.</p> <p>SECURITY INCIDENTS: If we manage a security 'incident' / breach on your behalf you will be charged \$2,999 (inc GST) once per incident / breach. Non-refundable and payable immediately upon notification of a potential security incident / breach. (non-payment will result in Logi-Tech immediately ceasing its sponsorship).</p>
Fees are non-refundable	<p>All fees are non-refundable, even if your application is denied by AGSVA after the vetting process, or if you should cancel your application during the process, or fail to complete the necessary requirements for your application including abandoning the process. We accept no responsibility or liability for the outcome of any application, delays in processing, requests for further information, or decisions made by AGSVA, as these matters are solely within the control of the assessing authority. See <i>Terms for Reimbursement</i>.</p>
Terms for Reimbursement	<p>Logi-Tech will reimburse you for the cost of this Security Clearance after you have spent a minimum 30 days on job contract with a Para Bellum Solutions Group client within two years. Annual assessment fees are waived for candidates on a job contract with us. Eligibility for roles are subject to job availability, employment screening, and suitability requirements.</p>
