DEFENCE READY

Business owners,
contractors, and
employees

Unlock Broader Defence Opportunities in the Australian Government, Defence, and the Defence Industry with an Australian Government Security Clearance!

Qualify your organisation to bid for Defence and government work.

Scale into Defence programs with confidence.

Unlock Broader Defence Opportunities with an Australian Government Security Clearance!

An Australian Government Security Clearance is more than an administrative requirement — it is a **commercial and career enabler**.

For contractors, business owners, and employees alike, holding a clearance unlocks access to Defence and government work that is otherwise unavailable, positioning you to participate in some of Australia's most critical, complex and long-term programs.

Whether you are an independent contractor seeking higher-value engagements, a business owner wanting to expand into Defence markets, or an employee looking to future-proof your career, a security clearance creates opportunity, credibility and confidence.

Why a Security Clearance Matters

For Contractors

- Access a broader pool of Defence and government contracts
- Become immediately deployable for cleared roles
- Reduce downtime between engagements
- Command stronger day rates in specialist disciplines
- Build a sustainable pipeline of long-term work

A clearance allows you to be considered for roles before projects commence, rather than scrambling to obtain clearance after an opportunity arises.

For Business Owners

- Qualify your organisation to bid for Defence and government work
- Enable your workforce to operate in secure environments
- Strengthen client confidence and commercial credibility
- Reduce project risk caused by clearance delays
- Scale into Defence programs with confidence

Having cleared personnel is often a prerequisite for panel access, tenders, and subcontracting arrangements within the Defence ecosystem.

For Employees

- Expand career pathways into Defence, intelligence and national security
- Gain access to stable, long-term programs of work
- Increase mobility across government agencies and Defence primes
- Enhance professional standing and employability

For many professionals, a clearance is the step that transforms what's possible in their career.

Defence Industry Security Program (DISP Level 3) certified.

We can sponsor Baseline, NV1, and NV2 Security Clearances.

Business Discounts for Groups of 10+ Security Clearances

Qualify your organisation to bid for Defence and government work.

Scale into Defence programs with confidence.

A clearance is more than an administrative requirement — it is a gateway to opportunity.

Did you know?

This shift is **no longer limited to Defence** alone.

Where work involves sensitive systems, protected information, or personal and medical-in-confidence data, an NV1 clearance is rapidly becoming the standard requirement.

This includes work associated with:

- Department of Defence
- Australian Taxation Office (ATO)
- Services Australia
- NDIS and other agencies managing personal or health-related data

In practical terms, even roles that were historically considered “non-sensitive” are now falling within clearance-required environments.

Recommended Clearance Level

We recommend Negative Vetting Level 1 (NV1) as a minimum.

NV1 is the **most commonly requested clearance** level across the Australian Government and Defence. It provides access to a wide range of classified environments and roles, making it the strongest baseline investment for individuals and organisations entering or expanding within the Defence sector.

Why Start Now

The Australian Government Security Vetting Agency (AGSVA) currently advises average processing timeframes of approximately **70 business days for NV1 clearances**. Starting early ensures you are opportunity-ready — positioned to accept work immediately rather than missing out while clearance is pending.

Defence & Government Opportunities Include

- Security-cleared professionals are sought across a wide range of disciplines, including but not limited to:
- Cybersecurity & Information Assurance
- Engineering (Systems, Maritime, Aerospace, ICT, Cyber)
- Project & Program Management
- ICT Architecture, Software & Hardware
- Risk, Governance & Assurance
- Strategy, Capability & Change Management
- Intelligence, Data & Analytics
- Science, Technology & R&D
- Communications, Marketing & Commercial Services

And many more across Defence, federal government agencies and Defence industry partners.

Why Choose Logi-Tech as Your Clearance Sponsor

Logi-Tech has been delivering integrated technology and cybersecurity services for almost 40 years. We are a **Defence Industry Security Program (DISP Level 3) certified** provider of Security Clearances. Since 2007, we've guided Australian citizens through every step of the Australian Government Security Clearance process for Baseline, NV1, and NV2.

You do not need to be an employee or subcontractor of Logi-Tech to access this service. We sponsor individuals directly, providing flexibility and continuity as your career or business evolves.

You may cease or transfer sponsorship at any time, subject to applicable terms.

Your Next Step

A security clearance is an investment in capability, credibility, and opportunity. Whether you are building a Defence-ready workforce, expanding your consulting business, or advancing your career, the Para Bellum Group (Logi-Tech, Para Bellum Solutions, and Enginium) is here to support you.

Get in touch to discuss Baseline, NV1, or NV2 clearances, or a clearance upgrade, and how they align with your goals.
