About Us

Para Bellum Solutions

Para Bellum Solutions is a specialist provider of diverse management consulting services. We combine deep sector experience with broad-ranging multi-disciplinary knowledge.

Our team comprises professionals with extensive experience in senior operational roles within government, industry, and military service, as well as years of management consulting experience in Australia and overseas.

Our people are Certified across a range of industry-standard methodologies, including PRINCE2 (including PMMV2), P3M, MSP, PMI, Agile, SCRUM and Prosci.

Logi-Tech

Logi-Tech delivers integrated technology and cybersecurity services designed for enterprise and operational environments.

Whether you're securing critical infrastructure, deploying new systems, or sourcing tailored tech solutions, our team ensures performance, protection, and peace of mind — powered by specialist expertise and industry-leading technology.

Enginium - Maritime Acquisition Engineering Specialists

Enginium delivers specialist Defence engineering services focused on the acquisition, integration and assurance of complex Defence capability — including surface ships, submarines, missile defence, combat systems and explosive ordnance.

Our expertise spans core Systems Engineering, Model-Based Systems Engineering (MBSE), systems architecture development, requirements engineering and verification, systems safety, certification support, and Test & Evaluation (T&E) across the full Defence capability lifecycle.

We support projects from early concept and requirements definition through design assurance, integration, verification and operational acceptance.

Enginium has deep experience operating within CASG, Navy, RAAF, GWEO and shipbuilding environments, providing structured engineering governance aligned to the One Defence Capability System and maritime regulatory frameworks.

Our team understands the unique integration challenges of naval combat systems, platform systems, propulsion, safety-critical ordnance interfaces and survivability requirements in complex maritime operating environments.

Para Bellum Group - Your Defence Capability Partners

In December 2024, Para Bellum Solutions, founded in 2017 by Jake Kearsley and Logi-Tech, founded by Peter Moore in 1986, joined forces to elevate consulting and cybersecurity excellence. In October 2025, Enginium, founded by Rob Milne in 2008, became part of the group, further expanding our collective capabilities. All companies are 100% Australian and veteran-owned.
